

Help Aphekom meet your information needs

The Aphekom project welcomes your views as a scientist whether or not you attended the Aphekom symposium at the ISEE meeting in Dublin!

The EU-funded Aphekom project seeks to meet the information needs of scientists, decision makers and ultimately the general public concerning the impact of air pollution on health. As such, to help us best meet the needs of people like yourself, we have prepared the following questionnaire, which we would appreciate your filling in. By **your** doing so, Aphekom will be better able to meet your needs in terms of the information we provide to you and the way in which we provide it

Should you wish to remain anonymous please feel free not to provide your contact information below.

When you are done filling in the questionnaire, please send it to a.ung@invs.sante.fr.

We look forward to getting your feed-back. Thank you for your help!
